

Humiliation
The National

[Intro] **A G D A**

[Primeira Parte]

A **G**
I survived the dinner and the air went thinner
D **A**
I retired to the briars by the pool, it gets so loud
A **G**
If I die this instant, taken from a distance
D **A**
They would probably list it down, among other things round town

[Refrão]

Em **D** **A**
Got my rings around me, I got baby to pound me
A
I see stars and go weak, my baby cries and lays me down
Em **D** **A**
In the skies over black Venice, I see eyes of a white menace
A
The surprise of the week, is that I never heard the sound

[Segunda Parte]

All the L.A. women, fall asleep while swimmin
I got paid to fish em out and then one day I lost the job
And I cried a little, I got fried a little
Then she laid her eyes on mine, and she said
Babe, you re better off

[Refrão]

I got my rings around me
I got baby to pound me
I see stars and go weak
My baby cries and lays me down
