

**Let It Go**  
**The Neighbourhood**

Just figured this out by ear, but it sounds right to me ^^  
The bar chords sound much better than basic chords with this song (FYI)  
All of the verses share the same chord pattern, as does the chorus.  
Tabbed by Sierra :)

**Bm** **G**  
I m from a little city with expensive taste,  
**A** **Em**  
Where the cars don t run until the engine breaks.  
Wasn t spending pennies on massive things,  
But invested in mess with this recipe.  
Couldn t quite see what the future held  
And as days went by it would tell itself.  
Let it struggle just a little bit more,  
Let it struggle just a little bit more.

**Bm**  
Remember what the people said,  
**Em**  
Remember what the people said,  
**G**  
When it s said and done,  
**Bm**  
Let it go.

Remember what the people said,  
Remember what the people said,  
When it s said and done,  
Let it go.

Shouldn t try to fix it if it keeps getting better,  
Just let it go, forget it for ever and ever and ever  
Don t ever resent a letter inside a single word written,  
A little change can play lanes with the right vision.  
Couldn t tell what would happen next  
But as weeks went by look what turned to best.  
Let it struggle just a little more,  
Let it struggle just a little bit more, mhm.

Remember what the people said,  
Remember what the people said,  
When it s said and done,  
Let it go.

Remember what the people said,  
Remember what the people said,

When it s said and done,  
Let it go.

If what they said was all pretend then it d be different,  
If it depended on if anyone was listening,  
And I was listening.  
And when they said that what I wanted was a figment,  
I had to turn the other cheek but I was listening,  
Yeah I was listening, listening to all.

Remember what the people said,  
Remember what the people said,  
When it s said and done,  
Let it go.

Remember what the people said,  
Remember what the people said,  
When it s said and done,  
Let it go.

Remember what the people said,  
Remember what the people said,  
I wasn t listening,  
I wasn t listening, listening at all.

Remember what the people said,  
Remember what the people said,  
Oh I wasn t listening,  
I wasn t listening, listening at all.

(At all at all at all )  
At all,  
At all.
