**Bm**                **G**  
Exiled and pushed away,

This bitter person,

Who s stuck right here,  
**A**  
Disillusioned

**Bm**  
Don t stand by,  
**G**        **D**                                **A**  
If you don t like what you see,  
      **Bm**                **G**  
So unsatisfied,  
      **Fm**                                **A**  
No I won t take what you say to me

**Bm**  
Give me some time,  
**G**  
Give me some reason  
**A**                                **Fm**  
Make up your mind and cool down the fever,  
**Bm**  
(The) drama must die,  
**G**                                **A**  
So give me some way to salvage this life,  
**Fm**  
Finally it s over

**Bm**                **G**  
You ought to stay away,  
**D**  
Til you see,  
**A**

What runs through me,  
**Bm** **G**  
Unless you get this game,  
**Fm** **A**  
The only one I wanna play

**Bm**  
My promise is cold,  
**G**  
You never been told,  
**D**  
There s nothing to hide,  
**A**  
I never did lie  
**Bm**  
There s no way to win,  
**G**  
When love is in vain,  
**Fm** **A**  
I won t take what you say to me

**Bm**  
Give me some time,  
**G**  
Give me some reason  
**A** **Fm**  
Make up your mind and cool down the fever,  
**Bm**  
(The) drama must die,  
**G** **A**  
So give me some way to salvage this life,  
**Fm**  
Finally it s over
