

## Refugees

### The New Limb

This is Refugees by the New Limb. Standard Tuning, No capo. Enjoy and review :)  
(check them out here: <http://thenewlimb.com/>)

Intro: **D A Em**

Verse 1: **D Bm A G**

Did u hear my whisper?  
Said how I felt about you  
Breathe in and out you  
But they doubt I think about you.

Verse 2: **D Bm A G**

I felt you shiver,  
When we climbed out the window.  
Like a black widow,  
Mother told me not to go.

Pre-Chorus 1: **Em F#m (x2) D**

Ah, ah,  
Can t stop the match and gasoline.  
Ah, ah,  
We are the refugees.

Chorus: **D D A G**

Oh our love was so overwhelming it,  
Took the neighbors I was the son that took the daughter.  
Oh our joy it infected everyone  
Ran like fire and took the children all children.

Verse 3: **D Bm A G**

And as we came down  
The blades of grass were bending  
Under our bare feet,  
Walking on to love and aging.

Pre-Chorus 2: **Em F#m (x2) D**

Ah, ah,  
Things are exactly how they seem.  
Ah, ah  
We are the refugees.

Chorus (x2)

Bridge: **D A (x3) G Bm A**

We Can

Years under feet  
0, 2, 3  
Mississippi  
You and then and me

Verse 4: **D Bm A G**

We ran for years there  
Out shuffling in the darkness.  
You were the compass  
I was all the light that saved us.

Chorus (x2)

Post-Chorus (x2): **A G (x2) D**

Oh our love was so overwhelming it  
Oh our joy it infected everyone

Fin.
