Intro: **Am Dm E Am**

**Am** **Dm**  
I counted to one hundred, I kept losing track  
**E** **Am**  
I wrote a hundred letters, no one wrote back  
**Am** **Dm**  
I told a hundred stories, and all of them got twisted  
**E** **Am**  
I sang a hundred songs, nobody listened

Chorus:

**Dm** **Am**  
You ve got to rise to power, rise to power  
**E** **Am**  
Baby you ve got to rise to power  
**Dm** **Am**  
You ve got to rise to power, rise to power  
**F** **G** **Am**  
Ain t a shade of difference, between the hills and the cowards  
**E** **Am**  
Baby you ve got to rise to power

**Am** **Dm**  
Forced confessions, and the coming attractions  
**E** **Am**  
Delusions that grandeur, split into factions  
**Am** **Dm**  
A silent dark camelot, a kingdom gray and black  
**E** **Am**  
A dull empty heaven, a strong leaders hand

Chorus:

**Dm** **Am**  
You ve got to rise to power, rise to power  
**E** **Am**  
Baby you ve got to rise to power  
**Dm** **Am**  
You ve got to rise to power, rise to power  
**F** **G** **Am**  
You re down on your knees, pulling up the flowers

**E** **Am**  
Baby you ve got to rise to power

**F G Am E Am**

**Am** **Dm**  
No holy water can wash me clean  
**E** **Am**  
No angel in my seed to hear my screams  
**Am** **Dm**  
Into your embrace, I ever drift  
**E** **Am**  
And in your arms, unforgiven

Chorus:

**Dm** **Am**  
You ve got to rise to power, rise to power  
**E** **Am**  
Baby you ve got to rise to power  
**Dm** **Am**  
You ve got to rise to power, rise to power  
**F** **G** **Am**  
The whole world s watching, there s a gun in the tower  
**E** **Am**  
Baby you ve got to rise to power

**Dm E Am**
