

Nothing From Something
The Offspring

Em / D / Am / Em

Em / C / D / Em

Things are coming down on me
They never seem to let it be
It seems like everything I say just starts another fight
The pressure s building up inside
I gotta let it out tonight
Shattered glass will cure my illls and make me feel alright

Em / Em / D / B

Gonna break it
And never stop running
Making nothing from something
Making nothing from something

Cut me for the lion s share
It s mindless, but I don t care
Cause no matter what I say
I m in a another fight
Take more shit, I ve had enough
Tonight I m gonna rip it up
Broken windows cure my illls and make me feel alright
