

**Nothing From Something**  
**The Offspring**

**Em / D / Am / Em**

**Em / C / D / Em**

Things are coming down on me  
They never seem to let it be  
It seems like everything I say just starts another fight  
The pressure s building up inside  
I gotta let it out tonight  
Shattered glass will cure my ills and make me feel alright

**Em / Em / D / B**

Gonna break it  
And never stop running  
Making nothing from something  
Making nothing from something

Cut me for the lion s share  
It s mindless, but I don t care  
Cause no matter what I say  
I m in a another fight  
Take more shit, I ve had enough  
Tonight I m gonna rip it up  
Broken windows cure my ills and make me feel alright
