The Offspring - One Fine Day

Please note I made this up myself from my head so if you think its wrong donâ€™t go all nerd crazy and write hundreds of corrections about how bad it is! And I didnâ€™t have time to fiddle about with the riffs and tabs so the middle section is just chords. I also didnâ€™t put bits on how to play so just figure it out.

C **D**
If I had a perfect day,
G **Em**
I would have it start this way
C **D** **G**
Open up the fridge and have a tall boy yeah!
C **D**
Then Iâ€™d meet up with my friends
G **Em**
Head out to the game again
A **D** **D**
We donâ€™t even really care who wins, wins
D **D** **D**
One two three!
G
Now excitement seems to grow
C
when weâ€™re hanginâ€™ with the broâ€™s
D **G**
When weâ€™re chillinâ€™ and we pound

a case of strohâ€™s
G
Now the game is cool to see
C
you can high five on TV
D **G** **G** **G**
Count the riot on the one two three
G
Operation is in sight
C
And the field is open wide
D **G**
when you break it then you know youâ€™re still alive

If the cops donâ€™t make you pay
C
and you make your getaway

D

Then you know

G

That's one fine day!

G " D " C " G

G " D " C " G

C D

On that day before we're through

G Em

We could torch a car or two

C D G

Then have ourselves another tall boy yeah!

C D

Water hoses and batons

G Em

That's the real game that's on

A D D

I don't really give a shit who wins, wins

D D D

One two three!

â€|Chorusâ€|

G " D " C " G

G " D " C " G

G C

I believe it's my god given right

D G

To destroy, everything in my site

C

Cause it never gets dull, it never gets old

D G

The only thing it gets is more bold

G C

Drinkin' fightin' going to the game

D G

In our world it's a way to stay sane

G

If you're asking me

C D

To have it my way, I'd say that's

G

One fine day!

--Chorus--

END ON G.

if you need the way to play it listen to it!
