

**Kiss The Grass**  
**The Paper Kites**

Kiss the Grass - The Paper Kites

edit 3/4/14: Before you start, I've also added another tab for the same song in an Open D tuning (capo 4) if you're into that sort of thing - back when I started I wouldn't touch anything that wasn't EADGBe, so if you're not comfortable with that you can stick with this, although the other version might be a little more accurate if you're feeling adventurous!  
Otherwise, enjoy this!  
Sinatra Blue.

Standard Tuning  
Capo 2

Chords used:

E: -001220-

A2: -00220x-

A: -02220x-

A/C#: -00224x- (use your little finger to play the 4 here)

Verse:

**E**                    **A2**  
Sweet daisy chain

**E**  
Around your neck

**A2**  
Through your hair

**E**    **A2**   **E**   **A2**  
In the sun

**E**                    **A2**  
Sweet glowing skin

**E**  
Kiss the grass

**A2**                    **E**                    **A2**   **E**   **A2**  
Golden air fill your lungs

Chorus:

**A**            **A/C#**        **E**  
Slow down, let it all slow

Repeat the verse chords for the verses, and for the chorus (slow down, let it all slow),  
do that as many times as you need, switching between E and A2 in the intervals.  
Also  
use the chorus chord progression in the bridge (and our bones are growing stronger...)

Sinatra Blue.
