

Crawl Babies
The Pastels

It s pretty easy song to play, just basic chords. Enjoy! Simply nothing to be done. Tab by edwould. <http://www.myspace.com/thepastels>

G **C**
She comes walking down the road
G **C**
And I know that dogs won t bark
G **C**
She comes walking up the stairs
G **C**
She s tap-tap-tapping on my door

F **Am** **G**
And she ll make those tears to know that it s a must
F **Am** **G**
But I go blind and my mouth fills up with dust

(the same as first verse)
Says she s open like a book
She s got everything I need
Even wants to take the time
To teach me how to read

(the same as first chorus)
But the ceiling moves on down towards the floor
And soon there s only room enough for us to crawl

C
I wanna build her up
Am
Up as tall as a church
C
Just to watch her
F
Just to watch her falling down
C **F**
I can t see her again
C **Am**
I just can t see her again
C **F**
I ve got to see her again
C **G**
I ve got to see her again

She comes walking down the road
With a kaftan in her hands
She comes walking up the stairs

She s tap-tap-tapping on my door

And she ll make those tears to know that it s a must
But I go blind and my bones start to rust

I wanna build her up
Up as tall as a church
Just to watch her
Just to watch her falling down
I can t see her again
I just can t see her again
I ve got to see her again
I ve got to see her again
