F G C Am F G Am

F G C Am
I hope my smile can distract you I hope my fists can fight for two

F G Am
So it never has to show And you ll never know

F G C Am
I hope my love can blind you I hope my arms can bind you

F G Am
So you ll never have to see What we ve grown to be

F G C Am
One may think we re alright But we need pills to sleep at night

F G Am
We need lies to make it through the day We re not ok

[**F Am F Em Am**]

F G C Am
One may think we re alright But we need pills to sleep at night

F G Am
We need lies to make it through the day We re not ok

F G C Am
One may think we re doing fine But if I had to lay it on the line

F G Am
We re losing ground with every passing day We re not ok

F G C Am
But that s one thing I would never One thing I would never

F G Am
That s one thing I would never say to you
