

**A rainy night in Soho**  
**The Pogues**

[Intro] C F G  
C F G C

I ve been loving you a long time F G C  
Down all the years, down all the days F G C  
And I ve cried for all your troubles F G C  
Smiled at your funny little ways F G C  
We watched our friends grow up together F G C  
And we saw them as they fell F G C  
Some of them fell into Heaven F G C  
Some of them fell into Hell F G C  
I took shelter from a shower F G C  
And I stepped into your arms F G C  
On a rainy night in Soho F G C  
The wind was whistling all its charms F G C  
I sang you all my sorrows F G C  
You told me all your joys F G C  
Whatever happened to that old song F G C  
To all those little girls and boys F G C

( F G )  
( C F G C )

Sometimes I wake up in the morning F G C  
The gingerlady by my bed F G C  
Covered in a cloak of silence F G C

I hear you talking in my head

**F G C**

I m not singing for the future

**F G C**

I m not dreaming of the past

**F G C**

I m not talking of the first time

**F G C**

I never think about the last

**F G C**

Now the song is nearly over

**F G C**

We may never find out what it means

**F G C**

Still there s a light I hold before me

**F**

You re the measure of my dreams

**G C**

The measure of my dreams

( **F G** )

( **C F G** )

( **C F G** )
