

In this TAB version, the solo might not be right as I can't see it in my head at the moment.

So sit back, relax, turn the music up loud and enjoy.

****lyrics****

****1st verse****

Night came down jungle sounds were in my ears
City screams are all I ve heard in twenty years
The razor s edge of night it cuts into my sleep
I sit upon the edge now shall I make that leap?

****chorus****

I m the omegaman
I m the omegaman

The omegaman
I m the omegaman
I m the omegaman
Always talking to myself

****2nd verse****

Skys alive with turned on television sets
I walk the streets and seek another vision yet
The echo makes me turn to see the last frontier
The edge of time closes down as I disappear

****repeat chorus****

****3rd verse****

Times that s best is when surroundings fade away
The presence of another world comes close to me
It s time for me to throw away this paper knife
I m not alone in reaching for a perfect life

****repeat chorus****

****outro****

(I m so tired)
I m the omegaman

repeat until fade.
