

You
The Pretty Reckless

It sounds quite accurate to me. Listen to the song to get it right. basically you have do long **G** s and **Em** s and then strum the **G Bm Em** or the **Em Bm G** combos to change from **G** to and viceversa. it s really easy if you listen to the song. it s the same chords over and til the bridge and after that it starts all over! I play it with no capo
