Angels Dont Cry
The Psychedelic Furs

verse 1
Eb
I try to remember a kiss
                                G#
And I only get sorrow
        Eb
And yesterday s faded away
                                Bb
Now there s only tomorrow

        Eb
And everything passes and changes
                G#
And comes to an end I know
        Eb
But nothing is written but old news
Bb
Again and again

Eb   **G#**
I know that it s true
                                Eb
There s too many tears
        G#   **Bb**
But angels don t cry
