I don t want to fall in love
Just want to have a little fun
E   **B**
Then you came and swept me up and now I m done so done
C#
Falling madly deeply I
Surprise myself enough to find
E   **B**
That what s become this love and now I m done so done, I m done

Yeah

I can t imagine right now
Standing here, without you
To think that I tried to ignore
What I felt, what I knew
I could never, stop this feeling

I don t want to fall in love
Just want to have a little fun
But then you came and swept me up and now I m done so done

Falling madly deeply I
Surprise myself enough to find that what s become this love and now I m done so done, I m done

Yeah

Thank you for not letting go
When I said
Let me go
Thank you for timing, thank you for finding
Thank you for not believing me baby when I said

I don t want to fall in love
Just want to have a little fun
But then you came and swept me up and now I m done so done
Falling madly deeply I
Surprise myself enough to find that what s become this love, and now I m done so done, I m done

Yeah

I wasn t looking for this, and now I m done, I m done.
