

**Its Only Make Believe**  
**The Rascals**

**Cm**                          **Fm**                          **Cm**  
Why don t you just be honest with yourself  
**Fm**                          **F#**                          **Cm**  
And me too, and never ask why again cause  
**Fm**                          **Cm**  
It will only rattle your brains  
**Fm**                          **F#**  
They all seem the same  
**F#**                          **A#**  
They all seem the same to me  
**B**  
Match made in heaven for the two of them  
**A#m**  
Brown and blonde and speak certain sounds  
**B**  
Of make believe  
**A#m**  
It s only make believe  
**C#**                          **D**                          **A#m**  
It s only make believe  
**C#**                          **D**                          **A#m**  
It s only make believe  
**C#**                          **Cm**  
It s only....

Young and innocent that s the way he prefers  
Lying through his shirts, out and about and  
Thinking of success with her to take a chance  
Its all to play for tonight  
They all seem the same to me  
Exciting and new, out of my league  
But that s what I m into  
And if I play it wrong  
She ll be leaving soon
