feel like it dont make ....
I m thinking baby you and I are undeniable
But I m finding now loves unreliable
I m giving all I got to make you stay
Or am I just a roadblock in your way?
PRE-CHORUS:
         F
 Cause I got some intuition
Or maybe I m superstitious
                                                             Dm
But I think you re a pretty sweet pill that I m swallowing down
   Dm
To counter this addiction
   Dm
You got me on a mission
Tell me darling can I get a break, somehow?
Dm
Can I say no?
CHORUS:
She s got a love like woe (Woe oh oh oh)
Girl s got a love like woe (Woe oh oh oh)
       Dm
```

```
I gotta feel like it don t make sense
 Cause you re bringing me in
And now you re kicking me out again
Loved so strong, then you moved on
Now I m hung up in suspense,
Because you re bringing me in and then you re kicking me out again
It s like a hurricane, speed train, she s a moving car
Catch her in the fast lane, oh I gotta know,
Can I keep up with her pace?
Kick it into gear when I see that face
  F
You can take up all my time cause you re the only one
That can make a storm cloud break, pulling out the sun
And I can t get caught in the rain
Can I get your lips to speak my name?
PRE-CHORUS :

Cause I got some intuition
Or maybe I m superstitious
But I think you re a pretty sweet pill that I m swallowing down
