BLUE COLLAR SUICIDE
from Fizzy Fuzzy Big & Buzzy

tabbed by Fiona Davies *

OK, the verse is almost entirely on E but it s mostly
a drums and bass thing except for Brian s teensy little fills.

Anyway, the main riff goes something like this with the rhythm
strumming an E the whole time:

E :----- ----- ----- -----
B :----- ----- ----- -5-4-2-----
G :----- ----- ----- -----4-2h4-2--
D :2----- --2----- 2----- -----2
A :--2--0--0--2-- 2--2--0----- --2--0--0--2-2 -----
E :-----4----- -----4-0--- -----4----- -----

Brian varies the little verse fills in every verse but to get started
use..

Natural harmonics..... and a gradual bend

E :-*12*----- -----
B :-*12*----- -----
G :----- -9b-----

PRE-CHORUS

CHORUS:

E5, A5, D5

SOLO (nice and easy for a change)

```

B:-----|-----..X-X many
G:-----2-|-----..X-X times
D:-2-1---2-4---|-----..X-X as
A:-----2-----|-----X-X needed.--..
E:-----|-----X-X-----..

```

^^^^^^^^^^^^^^^^^^

bass thing and

a bit of

E strumming

At the end as things get a little more psychotic just keep pounding out E5, A5, D5 over and over until the cool wah/noise ending.

You shouldn t have many problems figuring out the few couple of notes that make up the verses, I just can t be stuffed writting it all down :)

Anyway, any comments or corrections or whatever would be cool.
