

Nada
The Refreshments

#

From Fizzy Fuzzy Big & Buzzy

check them out if you have the chance... anyway, since i can t figure out tab to save my life, i paid special attention when they played NADA (it being my favourite song)... this is what he was playing...(forgive the lack of most note names... i suck, remember? and this is my first ever posting of a tab) :)

as always, read in notepad or something like that or it will look fucked up.
