

Skyway

The Replacements

Skyway

Capo 3rd fret

Tricky fingerpicking:

To get the feeling try playing the **D** chord and alternate the way you play the last string between the 2nd fret (as in a D) and the open string (**D9**). Do the same with the **GM7** chord (alternate on the little string between the second fret and the open string). I fingerpick the whole song and it sounds ok.

For the **D**: easy to play for everybody...

1 E: 2 (alternate with open string (e))
2 B: 3
3 G: 2
4 D: 0
5 A: 0
6 E: X

For the **GM7**: hard to play for beginners...

1 E: 2 (alternate with open string (e))
2 B: 0
3 G: 0
4 D: 0
5 A: 2
6 E: 3
