

Air Guitar

The Republic Tigers

Had to tab this out for personal use, and found out that the chords are actually very simple. Apply rhythm as

necessary. The whole thing is basically play C#m six beats, play D two beats, play C#m six beats, play E two

beats, play A six beats, play E two beats, play A six beats, play D two beats, repeat. It changes a bit at the end

to just repeat play A six beats, play E two beats until the end. And that s it!

Intro:

C#m D C#m E A E A D

C#m

Keep the time
