All The Way Down
The Rolling Stones
(verso)
      I was twenty one naive
                                    Bb
      Not cynical, I try to please
       Eb
      Her wit, her speech, her repartee
      Impressed me almost instantly
(refrão)
                G#
      She went all the way
                    Bb
      All the way down
                G#
      She went all the way, all the way
(verso)
      Eb
      She showed me sex a hundred ways
      And how she pimped and how she paid
      And all the daughters, all the sons
                                       Вb
      All were welcome, all would come
(refrão)
      We went all the way
      All the way down
      We went all the way, all the way
(verso)
      I was King, Mr. Cool
      Just a snobby little fool
      (Like kids are now)
      I dreamed of reaching greater heights
      I raved about it every night
      Talk is cheap
(refrão)
                G#
      She went all the way, all the way
                   Bb
      All the way down, yeah
```

G#

```
She went all the way
     All the way, all the way
                                Bb
     All the way, all the way down
              Eb
                            Bb
     She s there when I close my eyes
                      Вb
                               Eb
                                             Bb
     There when I close my eyes
                                     G#
     She s there when I close my eyes
                      Вb
                               Eb
                                      G#
                                            Вb
     There when I close my eyes
(verso)
     How the years they rush on by
     Birthdays, kids and suicides
     Still I play the fool and strut
     Still you re a slut
(refrão)
                          G#
     Hey girl, she went all the way
     All the way, all the way
                   Вb
     All the way down
                G#
     She went all the way
     All the way, all the way
     All the way down
                G#
     She went all the way
     All the way, all the way
                   Eb
     All the way down
(instrumental 3x)
    Вb
          Eb
(verso)
     You give me back that time right now
     I can see it if I close my eyes
     Was every minute just a waste?
     Was every hour a foolish chase?
      I don t believe it
(refrão)
     She went all the way
     All the way down
     She went all the way
     All the way down
```

She went all the way

All the way down
She went all the way
All the way, all the way
All the way down
