Beast Of Burden Intro
The Rolling Stones

Date: 30 Nov. 04
From: Grayson Carr

I was looking around at tabs for this song and I found a much easier way to play it that
actually sounds more like the song. Go ahead and play it while listening to the song and
once you have the rhythm it sounds the exact same. I think there are two guitars in the
song but here s how to play it with one guitar.

```
>-------------------------------------------------------|
>----5/7----7-7-7----5---------------------------------|
>----6/7----7-7-7----6--9----------7-------------------|
>----7/7----7-7-7----7--11----9h11---------------------|
>-------------------------------------------------------|
>-------------------------------------------------------|
```

To make the first slide work, start your fingers in this position and slide the finger
on the 5th fret to the 7th.

```
|---|---|---|
|-5-|---|---|
|-5-|-6-|---|
|-5-|---|-7-|
|---|---|---|
|---|---|---|
```
