

Dancing In The Light
The Rolling Stones

Dancing In The Light

G **C** **G**
I m sitting in the darkness, you re dancing in the light

C **G**
You really hit the big time, I really took a dive

C **F**
I m running in the rain, you re dancing in the light

D **G**
I m waiting for the train, that never will arrive

You left me twisting in the wind, dangling in the night
You ll be Mr. Christian and I ll be Captain Bligh
Look at you with your face all shining, got some work and some realigning
Now that your nose got some redefining, you look like a million bucks

Chorus:

C **D**
I got a sinking feeling, you and your wheeling dealing
F **C** **G**
I m going to hit the ceiling, bang the ground with a bump
C **F**
My whole world is crashing, I took a violent thrashing
D **G**
Something to throw the trash in, I m in the garbage dump

What d I ever do? You treat me so bad
You re living in a penthouse, my flat is dark and damp
Yeah, what s the matter, baby? We used to be so tight
I m living in the gloom, while you re dancing in the light

Chorus

You re lying in the sunshine, I m hanging in a cloud
You re basking in the spotlight, I m lost in the crowds, yes
What am I gonna do about you? What am I gonna do?
What am I gonna do about you? What am I gonna do?

I don t have a clue without you What am I gonna do?
I m in a dark place, baby I ve got to, I ve got to wear a grim face, baby
You ve got me with the heartaches, yeah Get me out of the dark place
What am I gonna do without you? What am I gonna do?

If I was your new boyfriend, I would have stage fright
While you re riding in a limo, I m wheeling my bike, yeah
What am I gonna do without you? What am I gonna do?
What am I gonna do without you? What am I gonna do?

Oh yeah, Oh yeah
Dancing in the light, Oh!
Yeah, oh yeah!..
