Dancing In The Light The Rolling Stones

Dancing In The Light

G C G

I m sitting in the darkness, you re dancing in the light

C G

You really hit the big time, I really took a dive

C F

I m running in the rain, you re dancing in the light

D (

I m waiting for the train, that never will arrive

You left me twisting in the wind, dangling in the night You ll be Mr. Christian and I ll be Captain Bligh Look at you with your face all shining, got some work and some realigning Now that your nose got some redefining, you look like a million bucks

Chorus:

C D

I got a sinking feeling, you and your wheeling dealing

F C (

I m going to hit the ceiling, bang the ground with a bump

C F

My whole world is crashing, I took a violent thrashing

D G

Something to thrown the trash in, I m in the garbage dump

What d I ever do? You treat me so bad You re living in a penthouse, my flat is dark and damp Yeah, what s the matter, baby? We used to be so tight I m living in the gloom, while you re dancing in the light

Chorus

You re lying in the sunshine, I m hanging in a cloud You re basking in the spotlight, I m lost in the crowds, yes What am I gonna do about you? What am I gonna do? What am I gonna do about you? What am I gonna do?

I don t have a clue without youWhat am I gonna do?

I m in a dark place, babyI ve got to, I ve got to wear a grim face, baby

You ve got me with the heartaches, yeah Get me out of the dark place

What am I gonna do without you? What am I gonna do?

If I was your new boyfriend, I would have stage fright While you re riding in a limo, I m wheeling my bike, yeah What am I gonna do without you? What am I gonna do? What am I gonna do?

Oh yeah, Oh yeah
Dancing in the light, Oh!
Yeah, oh yeah!..
