

If You Need Me

The Rolling Stones

If you need me, why don t you call me
 Said if you need me, why don t you call me
 Don t wait too long, when things go wrong
 I ll be there, yeah, where i belong
 Said if you want me, why don t you send for me
 Said if you want, want, want
 All you gotta do is send for me
 Don t wait to long, just pick up your phone
 I ll be there, right there, where i belong
 People always told me, darling
 That you didn t mean me no good
 But i know deep down in my heart
 I done the best i could
 And one of these days, darling, it won t be long
 You re gonna come walking through that door
 And i know in my mind these are the very
 Words you re gonna say to me
 I still love you, always thinking of you
 I still love, love, love
 Always thinking of you
 Don t wait too long, when things go wrong
 I ll be there, right there, where i belong
