If You Need Me
The Rolling Stones

```
                        F#                            C#
    If you need me, why don t you call me
                      F#                    B
    Said if you need me, why don t you call me
                    F#                        C#
    Don t wait too long, when things go wrong
                Ebm                    F#      C#
    I ll be there, yeah, where i belong
                      F#                        C#
    Said if you want me, why don t you send for me
                    F#
    Said if you want, want, want
                          B
    All you gotta do is send for me
                    F#                        C#
    Don t wait to long,just pick up your phone
            Ebm                              F#      C#
    I ll be there, right there, where i belong
    F#
     People always told me, darling
     C#
     That you didn t mean me no good
    F#
     But i know deep down in my heart
     B
     I done the best i could
    F#
     And one of these days, darling, it won t be long
    C#
     You re gonna come walking through that door
          Ebm
    And i know in my mind these are the very
        F#                    C#
    Words you re gonna say to me
            F#                        C#
    I still love you, always thinking of you
            F#
    I still love, love, love
                  B
    Always thinking of you
                  F#                        C#
    Don t wait too long, when things go wrong
            Ebm                            F#
    I ll be there, right there, where i belong
```
