F#m              A                    E                        G#m
   I never ever, I never ever meant to catch you in a lie
F#m              A                    E                        G#m

With my phone turned off, it makes no sound

But you said you needed space
            A              E      Bm
