

Wildfire

The Saturdays

Em C G D through out whole song

Hey hey I ve been waiting
Waiting for the day
For the day to end

When I feel the night moving in
One thing on my mind
Here I go again ooh

Push up on my body
Put it on me
DJ get me high
Move me over slowly baby
Show me feel the flame ignite
This club is heavy
Now I m ready
You re the guy to do it right, yeah so do it right

Get up in my face
We re burning the ground
There s no way, no way
I m stopping it now
Your heat is turning me on
I bet that all night long
We go like wildfire, wildfire
Get all up on me
They re playing it loud
We started a blaze there s no putting out
Your heat is turning me one
I bet that all night long
We go like wildfire, wildfire
