

Cant Seem To Make You Mine
The Seeds

C **G** **Am**
I can t seem to make you mine
I can t seem to make you mine
You fly around like a bee
Hurting everything you see
I try everything I know
To make you wanna love me so
The only thing you do
Is try to put the hurt on me

F **C**
Can t you see what you re doing to me
F **C**
You fill my heart with misery
F **C**
In every breath and step I take
G (Break) **G**
I m more in love with you

It continues with these chords through the whole song.
On the keyboard solo you just play the verse.
