

Im Alive
The Shaky Hands

Em G *3
D C

Rest inside
I think we re safe tonight
When coming down
You are so weird
When you re raising hell
For yourself
I know
You have not withered yet
D
We have this time to cultivate

Bm G
And I m alive
C G
once again
Bm G
when you take your knife
C G
Off, off my skin
F C
we are the same
G F C D
and the light will come and save us all
C
No more fear
G
once again

Fists don t crave
And can you leave your hate
Or have you been too consumed
when you re raising hell
for yourself
Well I know
that s not all you have
What about the things I gave

And I m alive
once again
when you take your knife
Off, off my skin
we are the same

and the light will come and save us all
No more fear
once again

And when you cast me out
I m floating like a feather
But I know how to breathe
And you re not there
You re not there
You re not there

And when you cast me out
I m floating like a feather
But I know how to breathe
And you re not there
You re not there
You re not there
