

Im Alive

The Shaky Hands

F#m A *3

E D

Rest inside

I think we re safe tonight

When coming down

You are so weird

When you re raising hell

For yourself

I know

You have not withered yet

E

We have this time to cultivate

C#m A

And I m alive

D A

once again

C#m A

when you take your knife

D A

Off, off my skin

G D

we are the same

A G D E

and the light will come and save us all

D

No more fear

A

once again

Fists don t crave

And can you leave your hate

Or have you been too consumed

when you re raising hell

for yourself

Well I know

that s not all you have

What about the things I gave

And I m alive

once again

when you take your knife

Off, off my skin

we are the same

and the light will come and save us all
No more fear
once again

And when you cast me out
I m floating like a feather
But I know how to breathe
And you re not there
You re not there
You re not there

And when you cast me out
I m floating like a feather
But I know how to breathe
And you re not there
You re not there
You re not there
