

The Sleepless
The Shaky Hands

G Bm D A

Sing it so lovely

it hit me like a stone

some trees they fall down

But I know some will grow

The shadow has left me

she put me in my place

but I think I m fine here

It s a place where I can stay

I can stay

The turning of winter

Do you miss your home

or do you have it

A love to call your own

Laughing is easy

and laughing is all i have

some mornings

I hope the light will understand

Understand

G **Em**

Let s try it out now

D

Breathe it in now

A

and all we have is now

G **Em**

Hold it in now

D

but let her out now

A

Let s keep so still now

The sweetest confusion

left me in the sun

And I forgot you

I forgot we were one

The sleepless, the wonder
puts holes inside my brain
But I think I m fine now
I see a light with no pain

No pain

Let s try it out now
Breathe it in now
and all we have is now
Hold it in now
but let her out now
Let s keep so still now

You sing it so lovely
It hit me like a stone
some trees they fall down
but I know some will grow
