

Whales Sing
The Shaky Hands

Eb

You were bad but

do you feel it?

And in the hindsight

you don t see it

And it s a shame

you were forsaken

with the traps

set so well hidden

Bb

Eb

G#

And I know all whales can sing

Eb

With the shouting

you hold me up again

If you re the highway

I m the pavement

Through back door

from the existing

And all the wind blows

neverending

Bb

Eb

G#

And I know all whales can sing

Fm

G#

Cut all this out

F#dim

We shall not be

F

turning lightly

Fm

into the wind

Bb

and never again

hear the song end

Fm

Eb

of the ocean

The trip is long but

you will prosper

you re not alone, boy

you have a father

and there s a lesson

they have given

and underwater

I can listen

And I know all whales can sing

There is enough for

when you come down

Into the water

you will hide out

for the changing

of what is sacred

Oh to the father

the hope that he will read it

And I know all whales can sing

Cut all this out

We shall not be

turning lightly

into the wind

and never again

hear the song end

of the ocean

I know all whales can sing

And I know all whales can sing!
