```
Grace
The Sidekicks
[Verse]
Forget the matches that they sold you
Dmaj7
  they were used
Em
  stick with your golden hue
Dmaj7
now I'm glowing too
Em
            G
     hoping having a hold on you
Dmaj7
doesn't mean I grow dependent
      D
                              Dmaj7
     Grace was just hoping for heaven
G Em
[Chorus]
              Bb
you can say anything you want to me
              \mathtt{Bb}
they'll use words you've never heard
it makes you unsure
[Verse]
                           Dmaj7
                                        G
Grace got caught in the melting pot but fights it like a dream
                           Dmaj7
                                        G
in all the lying and the screams, she stays quiet and serene
                            Dmaj7
                                         G
the adult life's a bonfire burning you've got to keep a couple feet away to
keep from
hurting wasn't at first but she's learning
[Chorus]
                             D Dmaj7
              Bb
well you can say anything you want to me
              Bb
they'll use words you've never heard
it makes you unsure
[Bridge]
         Dmaj7
                G
weâ€^{\text{m}}ll let old homes, old bones, all down
         Dmaj7 G
weâ€^{\text{TM}}ll let old homes, old bones, all down
         Dmaj7
                G
```

we'll let old homes, old bones, all down let em all down forget the matches that they sold to you
