(verso 1)  
Bm D A Bm D A E  
You say stay and never leave  
You say meant for ever  
I could believe you, but I don t  
You say we re almost all alone together  
All alone  
You say  
You say you will  
I know you won t

Bm D A Bm D E  
I was wrong  
I was wrong to ever doubt  
I can get along without  
I can love my fellow man  
But I m damned if I ll love yours

Bm D A Bm D A E  
In a bar that s always closing  
In a world where people shout  
I don t wanna talk this over  
I don t wanna talk it out  
I was quite impressed until I hit the floor  
Isn t that what friends are for?  
Pain looks great on other people  
That s what they re for
