**Em Bm7 A**

**A G Bm A**  
Running home I look, just now  
**Em Bm7 A**  
I played with colors filed as learn alone  
**A G Bm A**  
They don t mean bad when they fooled you on the phone  
**Em Bm7 A**  
Way they walked led them to dream on their own

4.30am in a creeping low  
I played a courtroom on my witches door  
Hang on to the only one  
Why all the lovers turn and pray on the phone

**Em A**  
And my eyes turn around at you  
I understand what you want

**Em A**  
And my eyes turn around at you  
I understand what you need

**Em A**  
And my eyes turn around at you  
But I just don t agree

One fool, just don t see  
One fool, just don t be

**Bm A**  
Close my eyes and there will be crying  
**Bm A**  
Close my eyes and there will be love, love, love

And my eyes turn around at you  
I understand what you want  
And my eyes turn around at you  
I understand what you need  
And my eyes turn around at you  
But I just don t agree

Don t agree, don t agree

One fool, just don t see

One fool, just don t be

And my eyes turn around at you

I understand what you want

And my eyes turn around at you

I understand what you need

And my eyes turn around at you

But I just don t agree, don t agree
