

Theres A Light
The Stanfields

[Verse]

There's a light shining through the scars
Of a million tired souls
Kindled in the heart of us all
From a flame can come a witch's fire
Or a warm hearth in a blizzard
Calling us in from the darkness
The golden age has come and gone
So-called progress marches on
The best of all things in the worst of all times
The future is here - all nickels and dimes
The same old story sells itself
Class and conduct - labour and wealth
Waiting in their station for a train that'll never come

[Verse]

So many times - I found myself at odds
With the words of self-styled kings
But I had not the strength to deny them
And other times - I tried to still the waters
Running canyons in my mind
But I only managed to get in my own way

[Bridge]

G

But I dare to hope that the clouds will break

D

And the good sun will prevail

Em

To burn away the cruel fog of war

B5 C#5 D5 E5 F#5

And turn the scorched earth green

G

They can nail me to the pearly gates

D

And salve my wounds with lye

Em

They can do many things

G

D

But they won't make a fool out of me.

[Instrumental]

[Verse]

D

G

There's a life carved out in the stars

Bm

For a billion burdened souls

F#m A

Waiting around to die

D

G

On the day you stand to meet your maker

Bm

Be it a god or Mother Nature

A

Em

D

Can you say that lived the right way? Can you say it?
