Right there s the intro, the outro is the same just slow down at the end to fade!

As with most roses tunes there s lots of overdubbed guitars but live on the DVD it s with capo, however I think John Cheekily switches during the bass fill s. However mess with it.

For the main body use the previous tab for lyrics/chords/arrangement. The key is to use

tech s for effect ie strum/open chords sometimes and then arpeggio to pick out
