

**Sugar Spun Sister**  
**The Stone Roses**

(Song For My) Sugar Spun Sister

(**A** and **D** alternating ending on **A**)

Her hair  
Soft drifted snow  
Death white  
I d like to know

Why she hates  
All that she does  
But she gives  
it all that she s got

**A**

Until the sky turns green

**C#m**

The grass is several shades of blue

**D**

**E**

Every member of parliament trips on glue

Until the sky turns green

And the grass is several shades of blue

Every member of parliament trips on glue

(**A** AND **D** AGAIN)

It takes all these things and all that time  
Till my sugar spun sister s happy  
With this love of mine

**E**

**D**

It ll take all these things and oh much more

(**A** AND **D**)

I ve paid  
For fifteen or more  
But my guts  
Can t take many more  
My hands are stuck  
To my jeans  
And she knows she knows  
What this must mean

(**A** **C#m** **D** **E**)

She wakes up with the sun  
She asks me what is all the fuss  
As she gave me more than she thought she should  
She wakes up with the sun  
I think what have I done

As I gave her more than I thought I would

(A AND D)

At takes all these things and all that time

Till my sugar spun sister s happy

E

D

With this love of mine

A AND D

Yeah yeah yeah the candy floss girl

The sticky fingered boy

Oh that sister of mine

Yeah
