[Intro]  
**C-G-C-G**

**C**            **G**  
All that I know  
Is your space is empty  
It's buried below  
The streets and the envy  
**C**            **G**  
All the places I go  
It still hasn't left me  
**C**            **G**  
I hated it then  
And now it consumed me

**C**  
I dwell on it nightly  
Tread swiftly and lightly  
**G**    **A**  
Make up the lost ground  
**G**  
And see what you don't see  
**C**  
All questions aside  
**G**  
I asked and you lied  
**A**                    **G**  
And now my hands are tied

**C**            **G**

All I can show  
Is absence from your life  
That I can't control  
It's all that I get right

Keep paying the toll  
I know that it seems like

I'm always upset

I know it seems like I'm always upset

(I know it seems like I'm always upset)

All that I know  
Is your space is empty

It's buried below  
It still hasn't left me

All that I know  
Is your space is empty

It's buried below  
It still hasn't left

[Chorus]x2
