

Omg

The Streets

Artist: The Streets

Song: OMG

Album: Computers & Blues

The song follows the same chord progression throughout for most of the song:

G - Em - C - G

I would recommend playing it with bar chords.

The three notes played in the intro and chorus is:

high e: 9-----12-----14 x3 ends on: 9-----12-----7

I know this isn't very difficult, but I still hope I managed to help someone.

Peace out
