      B              F#              C#
Once upon a time, I believe it was a Tuesday
      B                      F#           C#
When I caught your eye, we caught onto something
       B                 F#             C#
I hold onto the night, you looked me in the eye
           B        C#
And told me you loved me, were you just kidding?

         B              F#                 C#
 Cause it seems to me his thing is breaking down
         B                    F#        C#
We almost never speak, I don t feel welcome anymore
           B
Baby what happened
                     F#
Please tell me cause one second it was perfect
          C#
Now you re halfway out the door

         B                    F#
And I stare at the phone, he still hasn t called
          C#                     Eb
And then you feel so low you can t feel, nothing at all
       B              F#               C#
And you flashback to when he said forever and always

         B                   F#
Oh, and it rains in your bedroom, everything is wrong
   C#                         Eb
It rains when you re here and it rains when you re gone
       B             F#              C#
 Cause I was there when you said forever and always

       B                   F#             C#
Was I out of line? Did I say something way to honest?
         B              F#           C#
Made you run and hide like a scared little boy
           B               F#             C#
I looked into your eyes, thought I knew you for a minute
        B       C#
Now I m not so sure
```

           B
So here s to everything coming down to nothing
         B           F#            C#
Here s to silence that cuts me to the core
             B
Where is this going?
         F#          C#          B         C#
Thought I knew for a minute but I don t anymore

           B                        F#
And I stare at the phone, he still hasn t called
          C#                                Eb
And then you feel so low you can t feel, nothing at all
        B              F#                  C#
