

Over The Hills
The Tallest Man On Earth

G

Well, I could hear it, the river was crying

Em

And I could see you through the fog

G

And I could reach into magnetic fields, all

Em

To steal a hammer and a gun

Em **B7**

For every engine down

B7 **C**

Yes, I will find a new

C **G**

I m going over the hills now

G **B7**

I m going into the blue

G

And I will tell it to the mighty wind that

Em

I have betrayed it once again

G

And I will listen to the backwards music

Em

With a propeller in my hand

Em **B7**

For every child in tears

B7 **C**

I will throw down a hand

C **G**

I m going over the hills now

G **B7**

I m going over as planned

G

And every morning I will push a button

Em

And bring the sun above our head

G

And with a smiling face I do upon it

Em

I will consider it as said

Em **B7**

That every lie I tell

B7 **C**

Will arrive like it s true

C **G**
I m going over the hills now
G **B7**
I m going into the blue -Oh honey!

G
And I will hijack every morning railroad
Em
Perhaps I ll die upon that train
G
Perhaps I ll turn the wheel to slide it over
Em
Into the long and narrow trail
Em **B7**
And I would bounce the moon
B7 **C**
On the earth if I could
C **G**
I m going over the hills now
G **B7**
I m going over now for good.

Been looking all over for playable chords, and my frustration led me to find the
(surprisingly easy) chords on my own. One of my first listenings, so bear with
me.
An easy-to-play version if you re not keen on tuning your guitar specifically
for one song.
Feel free to submit other versions based on this one, if there s something that
can be
improved upon.
