

Ha Ha Im Drowning
The Teardrop Explodes

Ha, ha, I m drowning - lead track of Kilimanjaro

Brass intro:

(actually the brass doesn't play powerchords, but for guitar it just gives more, eh... power)

```

B-5-----5-10-8-7-5-----5-3-5-3-|
G-4-----4-9 -7-6-4-----4-2-4-2-| [repeat]
D-2-----2-7 -5-4-2-----2-0-2-0-|

Em Am

Oh use your common sense

Em D

And Don't take things for granted

Em Am

You know it's not like that

Em D

It isn't how you said (in live versions mr. Cope used say regularly)

You ask me if I love you
Well I don't think that's fair
You ask me if I love you
Well I don't think that's real

To criticize our love

E5 F#5 G5 A5 (basically same chords as used in the brass hook, but then it can be played from an open E, as a standard powerchord)

[the rest of the song is pretty much the same, except for the bridge - but this is basically repeating one chord - not really spectacular]
