

**Let Your Earth Quake Baby  
The Thermals**

**F5**                      **G5**              **A5**                      **Bb5**  
Pull me from the cold and pass me to your shoulders

**D5**                      **C5**              **D5**                      **C5**  
Keep me dry and warm, keep me high and normal

**F5**                      **G5**              **A5**                      **Bb5**  
Cause I m riding in your strut and lying in your gutter

**D5**                      **C5**              **D5**                      **C5**  
Drunken and confused, ready for abuse

**Eb5**                                      **D5 C5**  
So let your earth quake, baby

**F5**                      **G5**              **A5**                      **Bb5**  
Push me to the ground and break my ears of sound

**D5**              **C5**                      **D5**              **C5**  
I have never heard, I have never deserved

**F5**                      **G5**              **A5**                      **Bb5**  
Keep me deaf and muted, slap me til I m stupid

**D5**                      **C5**                      **D5**                      **C5**  
I m dying for your hand, I d die to understand

**Eb5**  
So let your earth quake, go ahead and break me

**F5**  
My skin invincible, you can t phase me

**Bb5**                                      **G5**  
I will take whatever you give me

**C5**  
If you pour I ll be the sieve

**Eb5**  
And I will filter just to live

**Bb5**                                      **G5**  
So let your earth quake, baby, you know me

**C5**                                      **Eb5**  
I surrender completely and slowly

**F5**                                      **G5**  
I m feeling like a genius

**A5**                                      **Bb5**  
I pound the wall I ve built between us

**D5**                      **C5**  
My hammer tears

**D5**                                      **C5**  
With my come I will repair

**F5** **G5**  
I deposit what I ve felt  
**A5** **Bb5**  
In the winter I can sell it  
**D5** **C5**  
It grows in the cold  
**D5** **C5**  
Until the soil is eroded

**Eb5**  
So let your earth quake, go ahead and break me  
**F5**  
My skin invincible, you can t phase me

**Bb5** **G5**  
I will take whatever you give me  
**C5**  
If you pour I ll be the sieve  
**Eb5**  
And I will filter just to live  
**Bb5** **G5**  
So let your earth quake, baby, you know me  
**C5** **Eb5** **Bb5**  
I surrender completely and slowly, slowly
