

**Power Doesn't Run On Nothing  
The Thermals**

Simple, straightforward, fun.

**Em**

We are just a child, we are just a child

**G**

we are wide awake but our legs are shaky

**Em**

we're unaware, we're hyper-active

**G**

we stare into space with grims on our faces

**C**

**G**

so give us what we're asking for

**Bm**

**C**

cause either way, we're gonna take it

**G**

our power doesn't run on nothing

**Bm**

**Em**

we need the land you're standing on so let's go

**G**

move it

**Em**

we are old as hell we are old

**G**

and tell the children when to kill and when to sit still

**Em**

everyone doing what we say

**G**

till our dying day, till our breath is empty

**C**

**G**

so give us what we're asking for

**Bm**

**C**

cause either way, we're gonna take it

**G**

our power doesn't run on nothing

**Bm**

**C**

we need the land you're standing on so let's go

**G**

move it

**C**

yeah you need to let it go

**G**

move it

**C**

yeah we re, more equal,

**Em**

we ll move you people,

**Em**

off the planet cause we need the fuel

**Em**

so, so let the beat roll over,

**G**

the beat roll over, everyone in line, one in line

**Em**

so, so let the beat roll over,

**G**

the beat roll over, everyone in line

one at a time

**C**

**G**

they ll give us what we re asking for,

**Em**

**C**

cause god is with us, and our god s the richest

**G**

our power doesn t run on nothing,

**Bm**

**C**

it runs on blood, and blood is easy to obtain

**G**

**Em**

**C**

when you have no shame

**G**

when you have no shame

**G**

so let the sun bathe, let the sun bathe

**Em**

**C**

we ll still have life, we ll burn even brighter

**G**

we ll drain the well, turn all to hell,

**Em**

**C**

leave the earth s surface to the worthless dirt

**G**

let the beat roll over, let the beat roll over,

**Em**

**C**

to everyone in mind, everyone in line

**G**

you think we ll cease, you see a reason,

**Em**

you think it s fair?

**C**

to think it s fair,

**G**

**Em C**

you think we care?

**G Em C**
