The Tiny - Closer

C#m **E**

Now I'm thinking maybe, I was stoned

B **G#**

I felt my feet lift off the ground

C#m

And my heart was screaming

E

At my bones

A

I need you closer

C#m **E**

As he's in the middle of the street

B **G#**

Then I pretend he is mine to keep

C#m

Cars are running fast on both sides

E

of his head, his eyes say

A **C#m** **A**

Closer closer closer

C#m

I met him when the sun was down

E

The bar was closed

B **G#**

We both have had no sleep

C#m

My face beneath the street lamp

E **B** **A**

it reveals what it is lonely people seek

C#m **A**

Closer closer

C#m **A** **F#**

Closer closer

E **A**

And you're close enough to lose

C#m **A** **B**

Close to the point, to where you know that your mind,

A

it cannot choose

E **A**

Close enough to lose.

C#m **B**

Close enough

A **B**

to lose your heart

C#m **E**
