

The Last Recluse  
The Tragically Hip

==INTRO==: D - D7

          C                  G  
We rode hard for the boat  
          Em                  Am  
Hard as we could, No tears you said  
          C                  Em  
understood? Understood?  
          D          D7  
I said alright  
          C                  G  
A crowd will be born, Only born die  
          Em                  Am  
I m not one to watch for a sign  
          C                  G                  Em  
in the night... Or to watch a bomb go off in a young girls life

==CHORUS==

          G          Em  
Who are you?  
          G          C  
The Last Recluse?  
          G          D  
Who are you?  
          D7          Em  
The Last Canada Goose?  
          G          Em  
Who are you?  
          G          C  
What is it with you?  
          G          C  
Who are you?  
          G          D - D7  
Who are you  
=====

          C                  G  
When the wind comes up and the surface of  
          Em                  Am  
the water scuffs, Enough, Enough  
          C                  G  
the ferry whistle cried, Just ride you said  
          D          D7  
Ride and shut up  
          C                  G

I jumped on board turned around  
to wave goodbye You were already  
on your bike and riding with my bike by your side

==CHORUS==

Who are you?  
The Black Canoe?  
Who are you?  
The Last Of The Immune?  
Who are you?  
You rode out of view  
As far as I knew it was you  
=====

Who broke my heart from the start  
Made me work and work so hard  
To get where I am  
To where I d let you do it all again

==CHORUS==

Who are you?  
Who are you?  
What do I do... without you?
